

Fire extinguisher cabinet for recessed wall mounting with integrated backlit fire protection symbol according to EN ISO 7010 and ASR A 1.3. When the door is open, a built-in safety luminaire is illuminating the area in front of the cabinet according to EN 1838. In addition, the safety luminaire is switched on in the event of a mains failure to ensure safe operation of the fire extinguisher.

Attention! This is not a standard article - Longer delivery time due to order-related production. No return possible.

Technical data

Material:	Sheet steel powder-coated	Inrush current:	6 A / 22 μ s
Illuminant:	LEDs	Protection class:	I
Nominal voltage AC:	230V $\pm$ 10% 50/60 Hz	Input terminals:	2,5mm ² feed through wiring
Nominal voltage DC:	176 - 264 V	Temperature ta:	-15...+40 °C

Available colours Add colour code to the article no. e.g. 800 014 **LXX**

RAL 9016 (Traffic white): **L04**  Special colour: **L99**
